

Vidyo Virtual Courts and Justice

Secure, user-friendly video experience
for the legal community

Use Cases

- **Court Rooms:** Provide judges, attorneys, and litigants a more efficient court experience with greater access to justice.
- **Lawyers and Law Firms:** Empower lawyers and firms to maximize attorney time, secure attorney-client communications, and ensure business continuity.
- **Correctional Facilities:** Ensure the safety, security, and health of prison staff, inmates, and their families while aiding in rehabilitation.

Benefits

- **Communicate and collaborate** across the justice system securely and confidently.
- **Increase efficiency** and convenience with greater access to justice.
- **Reduce costs** of travel, parking, and added resources.
- **Improve safety and security** with remote video access.

The Future of Justice

The judicial system took a radical turn during the COVID-19 pandemic, turning to remote video technology for its communication and collaboration needs. And while some people are heading back to in-person activities, many have embraced the convenience, cost savings, and enhanced access to justice that remote video proceedings provide.

How Vidyo Makes Judicial Proceedings Easy

Video conferencing has come a long way since its early iterations. Vidyo's Virtual Courts and Justice video conferencing solution provides security, clarity, and ease of use for more effective proceedings. Unlike some other video conferencing platforms, Vidyo's solution was designed using strict security protocols. In addition, Vidyo maintains an information security governance policy that prevents misuse and malicious damage that could impact our customers.

Vidyo's Virtual Courts and Justice video conferencing enables users to:

- Guarantee conversations are secure with Vidyo's robust security and privacy features that control confidentiality, integrity, and availability of information.
- Boost satisfaction and build trust through an easy-to-use, full-feature video platform that allows secure screen sharing, document upload, text chat, and encrypted e-signing.
- Provide a reliable and seamless experience for all involved parties with its patented dynamic adaptation technologies that continuously optimize media streams for unmatched fidelity over variable networks.

Provided as an on-premises or cloud-based solution, the Vidyo Virtual Courts and Justice video solution is easy to deploy, allowing your organization can be up and running in no time.

Anticipated Results

The Vidyo Virtual Courts and Justice solution is an end-to-end video conferencing solution. It provides a convenient and effective platform to improve productivity, cultivate collaboration across judicial practices, and reduce security risks - while ensuring the safety, security, and health of all involved.

Remote video conferencing has enhanced justice by providing greater continuity when meeting in person just won't work. Vidyo makes it easier to attend court appearances, including out-of-town participants and legal counsel, reduces travel and childcare costs, and empowers staff to be more efficient.

Features

Powered by the VidyoPlatform, Vidyo Courts and Justice provides a cost-effective solution that utilizes existing mobile and desktop devices and works with any application – Windows, macOS, and Android. Users can view it on any screen – mobile, desktop, or browser.

Video Quality and Error Resilience

The industry's first and only high-quality 4K video service delivers crystal clear video.

Meticulous Documentation

Remote video can be easily recorded and transcribed, providing a thorough record of the proceedings.

Embedded Chat

Clients can discuss topics with their counsel privately without disrupting court proceedings.

Easy-to-Use

Join meetings with the simplicity and convenience of a click of a button – no apps required.

Optimized Collaboration

An elegant user experience with video, text chat, file and screen share, and encrypted e-signing capabilities.

White-labeled

Create an interface that looks and feels like your very own conferencing solution – without the overhead of developing your own application.

Enterprise Video Management

Securely create, schedule, host, and archive meetings all in one place.

Video Conferencing APIs

Rapidly embed rich communications into any web, mobile or desktop apps, including existing business workflows.
